Adapted to the four Seasons of the Year,

WHEREIN

The Gentlemen Farmers have a Plan of Books entirely new, and suitable to their Occupation. The Method here laid down, is so rational and obvious, that it may be practised by any one who understands the common Rules of Arithmetic.

By following this Plan, the FARMER can, with very little trouble, know the Situation of his Affairs at any Season.

TOGETHER WITH

A Plan of Sowing Book for the Spring Season; also, a Calculation for the Harvest Season, with every other Occurance in the Farming way.

BY *JOHN ROSE*, ACCOMPTANT.
